When in need of cut flowers for funerals, weddings, parties or decorative purposes, we will furnish them in any design desired. Prices always reasonable. Phone 159. adv LEO C. BASLER.

### School Notes

The girls of the teachers' training classes 2 and 3 are out visiting and teaching schools in the county this week. It is a state requirement that all students taking this course must teach a week in rural districts. The purpose is to get a vivid idea of the methods used in conducting an elementary school. The following list shows the names of the girls taking the course and the schools they visited:

Lillian Weiler, River aux Vases. Mildred Okenfuss, Brickey's. Marguerite King, Bloomsdale. Gladys Clover, Independence. Pearl Rigdon, Bloomsdale. Winnifred Clark, Minnith.

The essays written February 20th on "What are the benefits of an enlistment in the U. S. Army" have been decided upon this week. It was found that Lillian Weiler took first place, Norman Operle second place, and Harry Petrequin third place. The first will be sent to St. Louis and from there we hope it will reach Washington.

Examinations for the third quarter will be given Thursday and Friday of next week. After these examinations there will be but nine more weeks of school this term.

The S. G. H. S. Basketball team left Friday evening to play at DeSoto, the game proved to be a defeat for our team by a score

of 31 to 18. The following day the boys remained at Festus and played their team that evening. The second defeat was received there. These two losses were probably due to lack of sufficient team work on these large courts. The boys will next play Herculaneum Wednesday. Although they lost the last game, watch their smoke Wednesday.

A Basketball Game will be played between Herculaneum and S. G. H. S. at the High School Auditorium Wednesday, March 10, 1920, at 8:30 p. m. Admission 15 and 25 cents. It's Heret's turn for a defeat, they'll get it this time. Come and see.

**If you want Butter, Cottage Cheese, Butter Milk or Skim Milk telephone Creamery.** adv

The first hanging in Missouri since the revival of capital punishment last August is scheduled to take place at Poplar Bluff March 26, as the result of the quick conviction by a jury last week of James Johnson, a negro, accused of attacking Mrs. Emma Mann, the wife of a farmer.

### Teachers' Examination.

Examinations for teachers' certificates will be held at my office Friday and Saturday, March 6th and 7th, beginning promptly at eight o'clock. Those coming in late will take next subject on program.

Very truly,  
MISS VIVIAN GATY,  
County Superintendent.

The Democrats of the Third District laude the State Committee for its help in carrying the District. Headquarters were moved to Excelsior Springs where, night and day, for two weeks, Chairman Ben M. Neale, Secretary J. L. Shepherd and Committeeman F. T. Crowley, planned and had carried out plans that were remarkable for their effectiveness.

### LIFE INSURANCE AGENTS WANTED

The Liberty National Life Insurance Company wants a thoroughly reliable, industrious man to represent it in this territory. It offers a very attractive contract, with opportunities for advancement, to the right man. Address:

**Liberty National Life Insurance Company,**  
Home Office: Cape Girardeau, Mo.

An eastern syndicate has bought the entire Iron Mountain in Iron County, and will continue to mine iron ore.

A. A. Baumgartner, County Clerk this week received 55 medals for the first applicants for medals, awarded by the State of Missouri to soldiers.

For the first time in nearly six months, President Wilson left the White House Wednesday and went for an automobile ride.

One thing is settled anyway—the ground hog saw his shadow, all right. The argument now hinges on whether March came in as a lamb or a lion, and those who believe the first three days of March rule the weather of the spring months are keeping close tabs on the skies. What's the use of watching the weather anyway—it gets no results in the way of improvement.—Ex.

Exceeding all previous output, the Philadelphia mint during 1919 coined for domestic use 500,915,000,—five sevenths of all the coinage for the year in this country,—besides making 90,529,195 coins for foreign governments. In 1918 it coined 367,845,006 pieces for domestic use and 28,480,000 for foreign governments.

More than \$60,000,000 will be spent by the American public for toys in 1920, according to the prediction of Homer Stephens, president of the American Toy Exhibitors, in commenting on the recent birth and rapid growth of the new industry in this country. "The first attempt of American manufacturers to compete with the Germans in the making of dolls was hardly 12 years ago," Stephens said. "Since then our doll industry had grown until at the present time three of the American doll manufacturers make more dolls in one year than all the manufacturers of Germany ever made in the same length of time for importation to the United States. "The old toy phrase 'made in Germany' will soon be changed to 'made in America' because all parts of the world are now realizing America's supremacy in this new field. "Big distributors in every country except Russia and Germany have visited our new toy fair in New York and have made purchases. "In 1911 about \$10,000,000 worth of toys were imported from Germany and about \$125,000 were manufactured here. "Americans have just awakened to the fact that toys made in the United States are not ornamental like the old German toys, but are constructive and educational—that is why America has given birth to and is rearing well its new-found industry.

Indians of Utah are said to have been the first people to use radium. Centuries ago they painted their bodies a canary yellow with carnotite. In their search for mineral colors Indian tribes carried on mining operations long before the days of Columbus. For sulphide of mercury, which gave them vermilion they worked the quicksilver mines of California; for blue, red and yellow pigments they mined oxides of copper and of iron; from the boiling springs of the Yellowstone region they got white and pink clays.
